Acai Phenolics	A native fruit of the forests of Brazil, the Acai berry is recognized as one of the most nutritious foods in the world. Rich in numerous vitamins, minerals and omega-3 fatty acids, among many other nutrients, the acai berry packs quite a punch in a small package! One of its most important qualities is its tremendous provision of anthocyanins and other phenolics and phyto nutrients. These compounds afford potent antioxidant protection, helping to neutralize potentially harmful free radicals. This protective activity offers anti-inflammatory, anti-aging and cardio health benefits, along with potential protection against many cancer-causing agents. Treat yourself to a big boost of nutrition from the little Acai berry!
Allantoine	Allantoine is known for its moisturizing, protecting and healing qualities. Benefits to skin include wonderful restorative results achieved by increasing and retaining the moisture content of skin cells, and by providing a protective layer to reduce moisture loss. Allantoine also helps soften the skin and aids in the elimination of layers of dry, dead skin cells. It stimulates tissue growth and natural healing of our cells and provides a soothing relief to irritated trouble spots. Allantoine is found naturally in the Comfrey plant, a flowering herb which grows along riverbanks in Europe and the British Isles, and which has been used for centuries as a natural healing source. Allantoine is especially gentle and soothing for sensitive skin.
Aloe Vera Extract	Aloe plants, known as the “lily of the desert”, provide time-tested Aloe Vera Extract, a soothing, calming ingredient used for centuries throughout the world. Made up of essential oils, amino acids, minerals, vitamins, enzymes and glycoproteins, this extract has clearly demonstrated the ability to reduce inflammation, decrease redness and irritation, and accelerate healing. By helping to increase oxygen to the skin, and by adding a natural, protective layer, Aloe Vera Extract brings its dramatic healing power to skin. History shows us the wonderful legacy of Aloe Vera Extract, from Cleopatra’s daily beauty regimen, to the treatment of wounds in Alexander the Great’s armies. Its versatility is still demonstrated today in relieving eczema, acne and burns, and in maintaining digestive health.
Anasensyl	Stress from internal and external sources can take its toll on delicate skin cells. For men and women alike, the impact of sun and wind exposure, the irritations of shaving, the dryness from indoor air systems and many other stress factors may appear on skin in the form of redness, sensitivity, dryness, itching or burning, just to name a few. Thank goodness for Anasensyl, a wonderfully soothing botanical that helps reduce these harmful effects on skin. The anti-inflammatory properties of liquorice and horse chestnut help calm skin’s reactions and sensitivity to these daily stresses, and provide relief to counteract those daily stresses.
Antileukine	The blend of ingredients in Antileukine is an extremely effective protector against the harmful results of sunlight exposure and UV radiation. A lipid extraction from specific marine algae, Antileukine helps the body inhibit the cellular inflammation associated with UV exposure and protects skin cells from the long term, serious damage this radiation can do. The active substances in Antileukine combat damage from free radicals and have been shown to provide enhanced DNA protection, key factors in preventing skin cancer. With the addition of vitamins and amino acids, Antileukine strengthens the cell structure and helps improve softness and smoothness by retaining the critical moisture levels needed for a healthy, glowing skin.
Apricot Kernel Oil	The luscious feel of Apricot Kernel Oil is just the start of the many wonders of this natural emollient. Packed with Vitamins A, B and E, it nourishes, soothes and moisturizes tired and dull skin. Due to its regenerative and invigorating qualities, it is perfectly suited for use on dry, aged skin. Additionally, its light texture is especially kind to areas with fine lines and sensitive skin, including the delicate eye area. Rich in essential fatty acids and non-comedogenic, it is beneficial to all skin types. Because it is so easily absorbed into the skin, it has been used extensively as a massage oil and is excellent in reducing stretch marks. This oil can be used to maintain the softness of a baby’s new skin, rejuvenate the dry skin of the mature adult, and enhance the suppleness of everyone in between!
Aquaxyl	What does hair crave more than anything? Moisture! By retaining its natural levels of moisture, hair can be healthy, shiny, vibrant and strong. Enter Aquaxyl, a compound which acts as a reservoir for moisture. Shampoos and conditioners containing this wonderful ingredient help restore hair’s moisture balance and may prevent the loss of this precious element.

Avocado Insaponifiables	Insaponifiables represent components of an oil that help to moisturize and condition skin and can improve the skin's texture and natural defenses. Because of its high level of insaponifiables, avocado oil is especially beneficial in nourishing and moisturizing skin. It has dramatic effects on sensitive, mature or troubled skin, and works as a healing agent in nurturing tired or irritated areas.
Avocado Oil	Avocado Oil is a rich, nutrient-dense oil that contains high levels of Vitamins A, D and E, along with proteins, lecithins and potassium, which is known as the "youth mineral". Its natural properties help condition and nourish the skin and are particularly beneficial for mature or dry skin. Highly therapeutic and easily absorbed, Avocado Oil is excellent in rejuvenating tired and troubled skin. It is a key component in combating dehydration and damage from the sun and climate, and is ideal as a moisturizing agent and protectant from the elements.
Azulen Extract	An exceptional healing substance, Azulen Extract is a delight to delicate, irritated skin. It eases irritation, reduces inflammation and calms allergic reactions with the natural extract of the chamomile plant, which lends its lovely light blue hue to products. A daily dose of Azulen Extract helps to heal and normalize sensitive skin.
Baobab	Known as the Tree of Life in many areas of Africa, the Baobab provides many nutritional benefits, from its bark and leaves to its fruit and seeds. This tree is very recognizable by its wide canopy of lush branches and leaves, dominating the vista of the African landscape. It has been seen as a symbol of life and vitality for many centuries, and is revered as an ancient and honorable gift to the world. The fruit of this tree is teeming with Vitamin C and is extremely high in antioxidants, the key to combating free radicals in the body. It is also rich in calcium and additional essential vitamins vital to the body's metabolic processes. The combination of these components helps boost the benefits of each other, working in tandem to provide an unparalleled nutritional experience. Drink in the rich, nourishing effects of the Baobab, and begin to feel the results, from the inside out.
Beeswax-French Bar Interchemistry	Used for centuries in cosmetic preparations, Beeswax is a wonderful emulsifier, allowing its sister ingredients to be absorbed and retained in the skin, and providing nourishing and moisturizing benefits from its own natural properties. It is soothing and hydrating and has anti-inflammatory and antiseptic qualities as well. Beeswax is non-irritating and non-comedogenic. As a primary ingredient in skin crèmes and lotions, lip balms and other humectants, Beeswax is unparalleled in its ability to moisturize, soothe and soften skin.
Biosaccharide Gum	Biosaccharide Gum is a skin-conditioning agent with tremendous humectant qualities. It provides long-lasting moisturization by binding water in the layers of the skin and by creating a light protective film to prevent moisture loss. Skin receives long-lasting smoothness and softness from this wonderfully hydrating ingredient.
Blackcurrant Extract	A superior source of berry antioxidants, Blackcurrants contain the highest amount of Vitamin C among berries. Additional Blackcurrant properties actively enhance the effect of Vitamins C and E and actually help these remain in the body longer. High levels of phytonutrients work synergistically to nourish and rejuvenate skin and can prevent the production of harmful oxygen radicals. Blackcurrant nutrients are key in forming the collagens necessary to build healthy skin and muscle tissue.
Bluet Water	Essential oils from the gentle cornflower are kind to the sensitive and delicate eye area. Bluet, or cornflower water, helps remove signs of fatigue and minimizes expression lines. Known as an anti-inflammatory, it helps ease the puffiness and tension around eyes, and preserve the supple, smooth appearance of delicate skin.
Borage Oil	Known as "starflower", the borage plant's seeds produce a luxurious oil which is rich in unsaturated fatty acids and Omega-6's and is one of the highest sources of gamma linoleic acid, a proven anti-inflammatory agent. Borage Oil helps in cell regeneration, restructuring and renewal. Beneficial to all skin types, this oil is an excellent anti-wrinkle agent, and is exceptional in moisturizing and softening skin.
Boric Acid	An extremely gentle cleanser, Boric Acid is safe for use around the eyes, and as such is a primary ingredient in many ophthalmic solutions. It is known for its efficacy as an anti-bacterial and can also be used to treat yeast or fungal infections.
Brilliance (Water, Hibiscus Sabdarifa Flower Extract)	When applied externally, the extract of the Hibiscus flower (Brilliance) can help restore the hair's structure and aids in rehydrating the keratin fibers. Its astringent nature helps cleanse the scalp and maintain the moisture balance, loosening outer cells which may lead to dandruff. It has a protective quality which increases the moisture level and gives hair a shiny, silky look.

Caffeine	Goodbye, cellulite! The caffeine that gives our mood a boost of energy can also give a boost to skin. An effective fat-fighting agent, caffeine helps reduce puffiness and swelling of the edema, thereby giving skin a smoother appearance. It can actually enhance fat metabolism and help reduce fluid retention. Additionally, caffeine penetrates the skin, activating the production of collagen, which firms and tones the skin.
Calcium	It is well known how important Calcium is for strong teeth and bones; still, 75% of adult women do need meet their daily calcium needs! Calcium is the most common mineral in the body, and is vital for many bodily functions. In addition to its role in preventing osteoporosis, this nutrient is beneficial in maintaining healthy blood pressure and heart health. By facilitating the movement of other nutrients across cell membranes, Calcium helps in many different areas of the body, including muscle contraction, blood vessel and heart performance, hormone regulation and intestinal functioning. By helping to regulate and facilitate the complexities of the human body, Calcium can help maintain a healthy weight, improve premenstrual moods, protect against colon cancer, and help maintain dental health, all areas are of primary importance as we gracefully mature.
Calendula Extract	The everyday Marigold, also known as Calendula, may seem simple in a flower pot, but it has a wealth of benefits to share. Known for centuries for its healing and anti-inflammatory properties, Calendula Extract helps rejuvenate the skin, overcome skin abnormalities and heal difficult wounds. It contains high levels of powerful antioxidants and is an effective anti-fungal and anti-bacterial agent as well.
Calendula Oil (CLR)	The everyday Marigold, also known as Calendula, may seem simple in a flower pot, but it has a wealth of benefits to share. Known for centuries for its healing and anti-inflammatory properties, Calendula Oil helps rejuvenate the skin, overcome skin abnormalities and heal difficult wounds. It contains high levels of powerful antioxidants and is an effective anti-fungal and anti-bacterial agent as well.
Calophyllum Oil	Calophyllum Oil is derived from the fruit stone of the Calyphyllum tree, named for its lovely, glossy green leaves. This oil has wonderful healing properties and has been used traditionally to remedy hair, scalp and skin conditions. It has an amazing capacity to speed wound healing and tissue growth. Also called Oil of Tamanu, it reduces redness and irritation and helps soothe and smooth skin's surface. Its light, non-greasy feel and mild, pleasant aroma make it ideal for delicate, sensitive skin.
Camphor	Enjoy the exhilarating cooling effect of Camphor, a natural derivative from the camphor laurel tree, found in eastern Asia. Similar to menthol, this fragrant oil has a mild anesthetic quality and acts as an antiseptic and antimicrobial substance. It is an effective treatment for acne and itchy, irritated skin, and has been used for centuries in the arts of medicine and healing.
Carbamide	Carbamide is a naturally occurring enzyme activator which aids in the retention and reabsorption of water in the epidermis. This compound aids in the exfoliation of surface skin cells and acts as a natural moisturizer. Carbamide is used to clean and protect skin while leaving it soft and hydrated.
Carotene Oil	Carotene Oil is loaded with powerful antioxidants which help protect the skin against damage from free-radicals. Both internal and external stress can take its toll on skin – toxins, UV rays, and pollution, just to name a few. This luscious oil helps to restore skin's natural balance and radiance.
Carrot Oil	Carrot Oil is a gift to skin! Rich in beta carotene and Vitamins A and E, its powerful antioxidant qualities protect skin from the effects of the sun and premature aging. It is a must before and after tanning, helping to protect and moisturize skin and prolong that luminous glow. This oil can be used to heal dry skin, condition hair, protect sensitive skin areas and repair the signs of aging.
Centella Asiatica Extract	Centella Asiatica has many wonderful properties. When used topically, it promotes the production of collagen and increases the tone of connective tissue. It combats puffy, saggy skin, rejuvenates the cells and restores tissue firmness and skin elasticity. Centella Asiatica works as a healing agent as well, and is used to treat wounds and skin ailments such as psoriasis and eczema.
Cerasome A and E	Cerasome allows for an excellent uptake of oxygen to skin, energizing and promoting luminous and healthy looking skin. Active ingredients improve the skin's ability to retain moisture, increase elasticity, boost resistance to damage and strengthen its own defenses. Absorbed particularly well by the skin, Cerasome maximizes the effects of accompanying vitamins and nutrients.
Cereal Extract	Cereal Extract nourishes the skin by contributing to the regeneration of the lipid layers. Damage from the sun, harsh cleansers and environmental stress can be soothed by this wonderful, moisturizing complex. Men may combat the effects of daily shaving and treat skin with this moisturizing, nourishing cleanser. Ladies may restore the moisture to the upper layers of the epidermis.

Cili	From the mountains of China comes an extraordinary fruit, sometimes called “The King of Vitamin C”. The Cili fruit provides incredible amounts of Vitamins C, A and E, as well as essential minerals and amino acids. Research shows that a significant portion of Cili’s vital nutrients are easily absorbed by the body. Cili has been shown to have profound effects on treating stress and boosting immune functions and promotes cardiovascular, skin and eye health as well.
Clematis Vitalba	Used in anti-cellulite preparations, Clematis Vitalba improves surface blood circulation, accelerates fat cell metabolism and facilitates the elimination of excess water and toxins trapped in the tissue.
Coconut Oil	Used for centuries by island and coastal populations, Coconut Oil provides essential moisture to skin and hair. It creates a cooling, soothing effect on the head and also acts as a cleanser while it softens the skin. Shown to heal and repair damaged tissue, Coconut Oil is a wonderful treatment for aging skin and helps prevent liver spots and other signs of aging.
Collagen	To help protect younger skin from the ravages of age and to help mature skin look its absolute best, Collagen is a MUST. As the main protein of connective tissue, it is critical to the structure of skin cells. As collagen degrades, fine lines and wrinkles take over. Give skin the strength and elasticity it needs to stay firm, soft and smooth by supplementing with Collagen.
Covazen (Linalool, Ylang Ylang, Patchouli, Geranium Maculatum Oil, Citronellol, Sandalwood, Lavandula Angustifolia)	Covazen Detox is a composition of essential oils designed to protect skin from the negative effects of everyday life. Internal stress, pollution, aging and environmental conditions can impact skin by drying and depleting cells of the nutrients they need to stay healthy and strong. Covazen Detox calms cells, firming and moisturizing to give them the internal fortitude to withstand the elements.
Covazen Relax (Linalool, Ylang Ylang, Patchouli, Geranium Maculatum Oil, Citronellol, Sandalwood, Lavandula Angustifolia)	Covazen Relax combines a number of essential oils, including both Geranium Oil, for soothing and calming, and Lavandula, for relaxation and healing. These oils are widely used in aromatherapy products for their calming effects.
Crotein M 20-Croda	Crotein M is a protein derived from Marine Collagen. Easily absorbed into the skin, and providing a light film on the skin’s surface to retain hydration, Crotein M is an extremely effective moisturizer for both the skin and the hair. It strengthens skin and hair cell structure, preventing further damage from the environment.
Cypress Extract	The natural essence of Cypress Extract will help firm, tighten and tone skin. It rejuvenates and revitalizes tired, overstressed skin, and is kind and gentle to the most sensitive areas. Rich in tannins, it provides remarkable antibacterial action, making it an effective natural deodorant. It is also an excellent astringent and disinfectant.
D Panthenol	D Panthenol is a provitamin which is converted into Vitamin B5 by the body. B5 provides oodles of moisture to the skin and hair by penetrating deep into the structure of cells. It absorbs and retains water in the epidermis and the hair shaft, which helps maintain softness and smoothness. It is especially beneficial to the hair in both preventing split ends and smoothing cuticles.
Detoxyl	A natural detoxifier, Detoxyl helps remove pollutants and other harmful substances from the skin. It repairs and re-oxygenates the skin cells, soothing and brightening the look of skin. It is gentle to sensitive skin and helps prevent further damage from free radicals and environmental pollutants.
Dihydroxyacetone	Dihydroxyacetone, or DHA, is a safe skin coloring agent derived from natural sources such as sugar beets and sugar cane. Approved wholeheartedly by the Food and Drug Administration, it is the primary ingredient in most self-tanners. It permeates only the top layers of the epidermis without damage to the skin, and is very kind to sensitive skin.
EH Flower of Orange Tree	The essence of the Orange Flower is known for its refreshing and calming effects. It moisturizes, relaxes and softens skin with its natural hydrating properties. Gentle enough for a baby’s skin, it is also suitable for mature or sensitive skin, or delicate areas needing extra care. It leaves a cool, fresh feeling on your skin as well.
EHG Bardane-Herb Atlantique	Bardane is a natural purifying agent which cleanses and removes surface impurities to give skin a fresh, radiant glow. Bardane regulates skin’s sebaceous secretion to keep a smooth, healthy appearance. It is an excellent treatment for oily skin, with its combination of deep cleansing and gentle hydrating and moisturizing.

EHG Tilleul	Tilleul, or Tilia Flower, originates from the Linden Tree, a historically significant flora specimen. Greek and Germanic mythology make reference to the virtues of the tree, and many Romantic poets included the Linden tree as their inspiration. With its anti-inflammatory mucilaginous component, tannins acting as an astringent and flavanoids with antioxidant properties, it brings health and wellness benefits to the body.
Elastine	A critical protein responsible for the elasticity of the skin, Elastine is composed of multiple amino acids which allow the body tissue to return to its original shape and size. Incorporated into lotions and crèmes, it helps moisturize and soften while toning and rejuvenating tired, dry skin.
Elastine Marine TM- Soliance	Elastine Marine is a highly effective, nourishing marine-based protein which helps rejuvenate and moisturize dehydrated, devitalized skin. Especially effective on fine lines around the eyes and mouth, Elastine Marine replenishes moisture and creates a gentle film on the skin to protect and prevent additional moisture loss. This natural component of healthy tissue helps improve the elasticity of tissue and restore the structure of the skin cells, revealing smoother, softer looking skin.
Eleuthro Root	This wonderful tonic is a favorite among health- and performance-minded athletes looking for a natural means to boost their body's physical performance and mental concentration. Eleuthro Root stimulates the immune system and helps the body's own systems to normalize and regulate reactions to stress and environmental changes. By counteracting the body's early responses to stress and physiological duress, Eleuthro Root allows the body's normal functions to operate at peak performance levels, promote greater mental focus, and support increased physical performance and energy levels.
Enteline	Enteline, derived from marine algae, helps calm delicate, sensitive skin and combats environmental stresses to which skin is constantly exposed. Enteline helps heal and sooth irritated, dry, itchy skin, reducing redness and inflammation and calming oversensitive and stressed areas of the face and body.
Enteromorpha Compressa	Derived from green macro-algae, Enteromorpha Compressa calms and soothes dry, sensitive skin. Its anti-inflammatory properties reduce the skin's natural reaction to stress, and comfort dry, irritated, sensitive skin. Enteromorpha Compressa helps soften and condition the skin by nourishing the cells and restoring the skin's natural moisture balance.
Eusolex 232	Eusolex 232 is a highly effective ingredient in sunscreen products. As a UVB filter, Eusolex 232 helps reduce the deleterious effects of ultraviolet radiation occurring from prolonged sun exposure. Eusolex 232 is non-irritating, and allergic reactions to this component are rare.
Eusolex 43	Eusolex 43 provides protection from both UVA and UVB radiation spectra. An important component of many sunscreen products, it offers proven protection against the harmful damage of prolonged exposure to the sun.
Eusolex 4360	Eusolex 4360 is a solid UVA/B sunscreen which is not only used for skin protection purposes, but also enhances product stability and longevity. In combination with suitable solvents, Eusolex 4360 provides persistent broad spectrum protection against harmful ultraviolet radiation.
Eusolex HMS	Eusolex HMS, as a homosalate ingredient in sun protection products, is an organic compound which absorbs UV rays of the 295 - 315 wavelength. In combination with other types of protectants, Eusolex HMS is an important component of full-range protection against the harmful effects of prolonged sun exposure.
Eusolex OCR	Eusolex OCR is a liquid UV filter which, in combination with other types of UV protection components, provides significant protection against harmful UV radiation.
Eusolex OS	Eusolex OS is a liquid sunscreen ingredient with UVB filtering properties . As a solvent with excellent dissolving properties for solid UV filters, it contributes to the overall UVB protection of a formulation.
Evening Primrose Oil	Evening Primrose Oil has a long history of medicinal use. As an anti-inflammatory, it has multiple benefits for both surface skin conditions and internal issues such as rheumatoid arthritis. It is especially effective in treating women's conditions associated with the menstrual cycle, menopause and pregnancy, and it is known to exhibit positive effects on sex hormone response. Rich in essential fatty acids, it is wonderful for hydrating and regenerating tired, wrinkled skin, and helps restore suppleness by improving surface circulation.
Extract of Enteromorpha Compressa (marine collagen)	Extract of Enteromorpha Compressa (marine collagen) is a highly effective, nourishing marine-based protein which helps rejuvenate and moisturize dehydrated, devitalized skin. Especially effective on fine lines around the eyes and mouth, it replenishes moisture and creates a gentle film on the skin to protect and prevent additional moisture loss. As a natural component of healthy tissue, collagen helps improve the elasticity of tissue and restore the structure of the skin cells, revealing smoother, softer-looking skin.

Extract of Laminaria Ochroleuca	Extract of Laminaria Ochroleuca, a species of brown algae that has an extremely wide range of health and beauty uses, is especially beneficial to the skin. It has anti-inflammatory properties that provide soothing, calming effects on skin. This extract helps reduce sebum flow and has natural anti-bacterial properties as well. It is an excellent component in products designed for sensitive or mature skin.
Fenugreek Oil	Fenugreek Oil has an interesting history dating back to early Egyptian use in medicines, cosmetics and mythology. Found in Tutankhamen's tomb, and still used today as a diet and medicinal staple, Fenugreek is a versatile and valuable addition to the herbal and botanical lexicon. Known for its ability to treat skin wounds and irritations, and used in facial masques as a soothing, softening ingredient, it is an ingredient in many Eastern cosmetics and cleansers.
Foti Root	Fo-Ti Root, also known as Ho Shu Woo Root, is one of the most widely used Chinese tonic herbs. Long recognized for its rejuvenating and longevity effects, it is revered as a sexual tonic and youth preserver. It has shown positive effects on lowering cholesterol levels, calming the nervous system and even restoring pigment to graying hair!
FUCOG	Fucose is one of eight essential glyconutrients known as "sugars that heal". It has been shown to have positive effects on the immune system and thwart allergic skin reactions by killing bacteria and helping the body fight infection. Forming a protective barrier on the surface, it reduces moisture loss and protects against the invasion of harmful environmental pollutants.
Fucus Extract	Fucus is a dark sea algae, naturally high in antioxidants. Rich in amino-acids, vitamins and minerals, it is prized for its natural protective properties. Key to many metabolic processes, the components of Fucus Extract help in the elimination of toxic material and excess water from the body. It has been shown to contribute to increased firmness and elasticity of the skin and to help achieve slimness and greater fitness.
Gatulin	Gatulin helps reinforce skin cells' fundamental architecture, protects the skin against harmful environmental impacts and boosts the cell renewal process. By increasing hydration and supporting the cell structure, Gatulin is highly effective at fighting the signs of aging.
Gatuline RC- Gattefosse	Gatuline RC was specifically formulated for products designed to combat the effects of aging on the skin. Targeting the structure and architecture of the dermis, it has tremendous smoothing and anti-wrinkle impact, giving tired, mature skin a healthy, nourished look and feel. Its moisturizing properties revitalize and rejuvenate skin cells, providing a youthful, vibrant appearance.
Gentian Extract	Gentian Extract is a soothing tonic often used for its general digestive benefits. It has antibacterial properties, and several of its components are anti-inflammatory. Its soothing and cooling properties make it an excellent addition to many topical crèmes and ointments.
Gentle Cleansing Complex (Polymers)	Gentle Cleansing Complex cleanses skin deeply and thoroughly, gently lifting oil, make-up and other impurities from pores. It leaves skin feeling fresh, invigorated and rejuvenated, without drying, tightening or removing precious nutrients.
Geranium Oil	Geranium Oil has a multitude of uses, both for its aromatherapy and its effects on the properties of the skin. Its aromatic essence has been used for centuries to revive the senses, refresh the environment and balance and stabilize the emotions. As a skin preparation, Geranium Oil provides deep, powerful cleansing, opens pores and clears oily complexions. It is a gentle astringent and is used to increase circulation and treat skin problems such as acne, burns and other wounds. Its therapeutic qualities make this an indispensable component of current natural healing methods.
Ginkgo Biloba	Ginkgo Biloba, indigenous to China, Japan and Korea, has multiple and varied benefits to the human body. Most notably, it improves blood flow to many tissues and organs, delivering nutrients throughout the body, promoting vascular health and boosting cognitive response. It is also a powerful antioxidant, protecting against cell damage from free radicals. It has been shown to improve attention and enhance general cognitive health.
Ginseng Extract	Ginseng Extract contains many vitamins and minerals including magnesium, phosphorus, calcium, potassium, silicon, iron, copper, group B vitamins and saponosides. These help tone and energize skin cells, improve circulation and skin elasticity and protect skin against the effects of radiation exposure. Ginseng Extract acts as a skin-tightening agent, helping to physically lift sagging skin and reducing the appearance of fine lines and wrinkles. Moisturizing and soothing, with regenerative properties, it is a critical component in skin firming crèmes.

Glycerin/Glycerin	Humble Glycerin is a fundamental component of quality, natural skin care. Glycerin products are very gentle and are phenomenal at moisturizing the skin. This ingredient is a humectant, attracting water to skin to restore its suppleness. It is also hygroscopic, meaning that it draws water from the air. Glycerin helps prevent chafing, chapping and cracking due to moisture loss and can greatly improve the elasticity and softness of skin. By attracting moisture and creating a natural barrier to prevent further moisture loss, Glycerin plays a significant role in maintaining healthy skin.
Grape Extract	Grape Seed Extract is known as a powerful antioxidant, neutralizing free radicals and protecting skin from harmful environmental stresses. It stabilizes collagen and elastin, both important proteins in connective tissues. Grape Seed Extract is particularly beneficial to mature skin, improving elasticity and nourishing skin cells.
Grape Seed Oil	Grape Seed Oil is very rich in essential fatty acids, noted for their soothing, emollient qualities. Thanks to its linoleic acid content, Grape Seed Oil helps regenerate cell membranes, restructure tissues and protect skin. It has significant antioxidant properties, making it a critical anti-aging ingredient. This oil is light and fluid, making it a preferred ingredient for use around the delicate eye area. It is easily absorbed into the epidermis, providing moisture and increased elasticity to tired, mature skin.
Green Tea	The secret of Green Tea lies in the fact that it is rich in catechin polyphenols, particularly epigallocatechin gallate (EGCG). EGCG is a powerful antioxidant which can inhibit the growth of cancer cells and lower LDL cholesterol levels. Rich in tannins, theine and Vitamin C, Green Tea has stimulating, toning, decongesting and fatigue-relieving properties. It can reduce skin inflammation and irritation and protect skin from the debilitating effects of free radicals.
Green Tea Extract	Green Tea Extract, when used as a skin care ingredient, is known to be a soothing toner and astringent. Its antioxidant properties make it an important component of anti-aging formulas, and it can provide protection against sun damage by quenching free radicals and reducing inflammation.
Helianthus Oil	Helianthus, or Sunflower Oil, is rich in essential fatty acids. With high amounts of Vitamins A, D and E and beneficial amounts of lecithin, it nourishes and conditions the skin and is easily absorbed due to its light texture. It is highly recommended to treat dry, aged or damaged skin, and is beneficial for all skin types.
Ho sho wu Extract	Also known as Fo-Ti Root, Ho sho wu Extract has been used as a rejuvenating tonic in both Ayurvedic and Chinese medicine. This "Elixir of Life" provides energy and vigor, maintains blood vessel health, and is an excellent protector of the musculoskeletal system. By helping to retain moisture, this soothing, protective ingredient is especially beneficial to the scalp and hair.
Horse Chestnut Extract	The seeds of the Horse Chestnut Tree are the primary source for the medicinal properties of this extract. Rich in a compound known as aescin, Horse Chestnut Extract helps improve the health, strength and elasticity of blood vessels and their capillaries. Flavonoids help boost surface circulation and contribute to the oxygenation of skin cells. They help the epidermis retain and restore lipids, soothing and fortifying the skin cells. Anti-inflammatory and antioxidant properties help protect the body from harmful free radicals and their debilitating effects.
Horsetail Extract	Horsetail Extract is an herb yielding a high concentration of Silica, which promotes the growth, strength and elasticity of connective tissue. This extract has a firming and tightening action on the skin, and has been used to accelerate the healing of burns and wounds. Its healing, astringent and anti-inflammatory components help promote healthy skin.
Huile De Ricin	Huile De Ricin, or Castor Oil, is extracted from the castor bean. It is a thick, viscous oil which acts as a humectant, drawing and holding moisture from the air. It conditions all hair types, protects skin and hair from the sun and helps restore dry skin. Further, this useful oil aids in the delivery of beneficial nutrients through the skin follicles.
HY1 Perfum Base (Litsea Cubeba Fruit Oil, Lavandula Hybrida Oil, Illicium Verum (anise) Oil, Rosmarinus Officinalis (Rosemary) Oil, Cymbopogon Schoenanthus Oil, Citral, Citronellol, Coumarin, Eugenol, Geraniol, Isoeugenol, Limonene, Linalool)	This pure essential oil complex has moisturizing and relaxing properties.

Hyaluronic Acid	Hyaluronic Acid is a major component of the dermis, the inner layer of skin, along with collagen and elastin. Hyaluronic Acid attracts and retains water within the dermis, hydrating the skin and giving it volume and structure. It is also critical to the delivery of essential nutrients to the layers of the skin. This substance keeps skin smooth and plump and helps build collagen to increase the strength and vitality of skin cells. Environmental factors, exposure to UV radiation and age all contribute to the loss of Hyaluronic Acid in the skin; replacement of this component can help add volume and smoothness to the skin's overall appearance.
Hydra 3	Hydra 3 is a complex combination of three essential ingredients: Hyaluronic acid (known for supporting vital moisture in the skin), amino acid (with powerful antioxidant properties) and lactic acid (used to reduce wrinkles, sun damage and other signs of age). This trio will help moisturize and protect sensitive, tired skin, hydrating dry or damaged surface cells and penetrating deep with critical moisture.
Hygroplex	Hygroplex is a natural moisturizing complex which protects the skin from moisture loss and helps replace hydration lost by environmental impact and aging of the skin. Hygroplex supports circulation, delivering nutrients to the skin while keeping it strong and hydrated. This substance helps lock in critical moisture, a must for a softer, smoother appearance.
Incroquat Behenyl	Used in hair conditioners, Incroquat Behenyl has significant emulsifying properties which allow for the delivery of conditioning silicone and other beneficial nutrients to the hair shaft. With great detangling and thickening actions, this mild conditioning complex offers the ultimate in soft, shiny, ultra manageable hair.
Isotonic Solute	As a basis for around-the-eye skin care products, Isotonic Solutes provide for safe, careful cleansing of the delicate orbital area. These distinctly mild and gentle solutes also provide protection from bacteria and other toxins.
Ivy Extract	With its astringent properties, the active ingredients in Ivy Extract help decongest the epidermal layer of the skin. They also help break down fatty stores and remove these substances by boosting the surface circulation, which aids in the elimination of cell metabolism waste and byproducts. Used in anti-cellulite products, Ivy Extract helps tone and tighten skin, promoting a smoother, more youthful appearance.
Jojoba Oil (Virgin)	Because Jojoba Oil is so similar to the sebum naturally secreted by oil glands, it is gentle and non-irritating to skin, hair and scalp. Highly nourishing, it softens, smoothes and moisturizes while restoring skin's natural sebum and lipid balances. Luscious Jojoba Oil reduces moisture loss and conditions hair, skin and nails.
Kaolin	Kaolin is a gentle, absorbent clay that is kind to sensitive skin. It helps exfoliate and cleanse skin, purging clogged pores, absorbing excess oil and drawing toxins from the skin in a gentle but effective manner. Kaolin also stimulates circulation, brightening the complexion and refining the skin for a healthy, glowing appearance.
Keravis	Keravis is a hair strengthening complex which helps retain moisture and improves hair structure from the inside out. By bringing moisture to the hair follicles and creating a protective outer layer, Keravis helps strengthen hair, reduce breakage and provide flexibility, thickness and shine.
Lactose and Milk Proteins	Milk Proteins, most notably Lactose, act as gentle exfoliants helping to improve the condition of the skin. Milk proteins provide significant hydration to thirsty skin cells, softening and soothing the skin. They can alleviate redness and irritations, comforting the delicate areas of the face and neck. Thanks to the Vitamins A and D naturally found in milk, these proteins nourish the skin and form a protective barrier to keep out harmful pollutants and toxins.
Lavender Oil	The name lavender comes from the Latin root lavare, meaning "to wash". Lavender Oil was commonly used in ancient times in baths to help purify the body and spirit and is known as a hydrating and calming oil. Within lotions, gels and other beauty products, essential Oil of Lavender has antiseptic and anti-inflammatory properties as well as the ability to revive tired muscles and soften skin, leaving it feeling refreshed.
Lemon Oil	The lemons in this case won't make you pucker! Instead, they are the basis for a powerful and soothing skin care product ingredient. Produced from the outer peel of the lemon fruit through cold pressing, Lemon Oil tones, moisturizes and purifies skin. As used in a facial masque, this essential oil aids in unclogging pores as well as relieving dry skin and reducing the appearance of blemishes.
Leogard	Here to serve and protect! Leogard is an ingredient in hair care products that creates a protective sheath around the hair while providing excellent conditioning.
Leogard GP-Brenntag	Helping hair recover from the stress of products and environment, Leogard GP- Brenntag is a natural-based cellulose derivative that will provide hair and skin with a great conditioning effect!

Lichen Extract	Despite its odd nickname, Lichen Extract - or “old man’s beard” - is a wonderful ingredient in certain skin care products where it acts as a protective and antibacterial agent. In a toner, for example, it is an effective yet gentle antimicrobial agent, destroying pesky microorganisms that are not healthy for your skin.
Lilium Candidum Extract	When used in a toner, this astringent ingredient hits its mark! Aimed at dry and sensitive skin alike, Lilium Candidum Extract is a moisturizing emollient that heals and softens damaged and irritated skin and tissue.
Lime Extract	Known as one of nature’s calming powers, Lime Extract does just that when used in lotions and crèmes. This ingredient, derived from that little green citrus, serves to hydrate and rejuvenate and is especially beneficial for damaged or stressed skin.
Macadamia Oil	Macadamia nuts may conjure images of Hawaii, but these nuts were actually first found and classified in Australia by John Macadam. The oil derived from these Aussie nuts has amazing properties that make it a prized ingredient in skin care products. Impressive in a lotion or crème, Macadamia Oil nourishes and moisturizes skin. It provides essential fatty acids and possesses great antioxidant properties as well.
Marine Botoxal	(Otherwise known as Marine Elastin) Sérums and other skin care products with Marine Botoxal let you have the last laugh! This powerful ingredient helps diminish signs of aging by reducing fine “laugh” lines. It is known for its ability to revive and brighten the eye area.
Marine Collagen	This simple protein, which is critical in healthy young-looking skin, often diminishes with age. As it diminishes, the visible signs of aging appear in the form of unwanted wrinkles. A lotion or crème rich in Marine Collagen can work to rejuvenate skin -- hydrating, smoothing and moisturizing!
Marine Elastin	(Otherwise known as Marine Botoxal) Sérums and other skin care products with Marine Elastin let you have the last laugh! This powerful ingredient helps diminish signs of aging by reducing fine “laugh” lines. It is known for its ability to revive and brighten the eye area.
Matrixyl/Matrixil	This dynamo ingredient in skin care products has been getting much press over the last few years. Matrixyl is especially popular in anti-aging products and is said to naturally work within the skin to stimulate collagen production. As a result, wrinkles and sagging are decreased and skin elasticity is increased. Now that’s one powerful peptide!
Maxi-Lip™	A marvelous base ingredient in certain lip-care products, Maxi-Lip™ has great properties to make the most of lips! It enhances lip moisture, improves the definition of the lip line and reduces chapping for healthier and fuller-looking lips.
Meadowsweet Extract	Derived from a perennial wildflower, Meadowsweet Extract is also known as Pride of the Meadow or Queen of the Meadow. As a skin care ingredient, this extract acts as an astringent and helps sooth irritated skin. It is also known as an anti-inflammatory believed to tighten and tone skin.
Melissa Extract	Where else would Melissa Extract come from but the Melissa plant itself? Herbal experts tout this extract for its calming, antibacterial and anti-inflammatory properties. Within a crème or eye gel, for example, its job is to balance the skin and help combat irritations. Well done, Melissa!
Menth Oil	A relative of peppermint oil, Menth Oil is a welcome ingredient in skin care products such as lotions and crèmes. It is loved for its antiseptic, antibacterial and refreshing properties.
Menthol	The Japanese knew about Menthol and its useful properties long before those in the West. This organic compound can be obtained from various mint oils, such as peppermint, and is a wonderful addition to skin care products such as lotions or crèmes. It is often considered a natural cooling agent for the skin and can stimulate blood circulation. On the most basic level, it is simply refreshing!
Modukine	Sensitive skin loves Modukine™! Lactose and milk proteins are the basis for this ingredient which acts as a balancing agent for skin. Modukine has been shown to decrease redness in skin and is a wonderful anti-inflammatory. In a crème or lotion, it contributes to the moisturizing of dry and imbalanced skin.
Moist (Glycerin, Water, PEG-8, Carbomer, Imperita Cylindra Root Extract)	The word says it all. Moist™, as an ingredient in lotions and crèmes, draws moisture into skin cells and helps preserve it there. It is especially great for those who struggle with dry skin.
Moist- 24 (Glycerin, Water, PEG-8, Carbomer, Imperita Cylindra Root Extract)	Moist-24™ is just what dry skin needs in its moisturizer! It can provide optimal hydration and helps preserve moisture for up to 24 hours. This ingredient helps draw moisture into skin cells and assists in protecting against external stresses.

Natural Essential Oils (Ylang-Ylang, Rosewood)	Aromatically pleasing and capable of leaving skin feeling soft and smooth, Natural Essential Oils are a prized plant-based ingredient in many skin care products. The term “essential” simply refers to the scent that these oils possess. They are also viewed as essential to producers of quality products due to their powers to revive, stimulate, energize, balance, moisturize, soothe and calm. Each essential oil - from lavender to rosewood to ylang - boasts its own unique characteristics and benefits.
Old Man’s Beard Extract	Also known as “Traveler’s Joy” and more scientifically as Clematis Vitalba, the plant from which this extract is derived has almond scented flowers. Old Man’s Beard Extract is considered a wonderful ingredient in certain skin care products and acts as a protective and antibacterial agent.
Oligophyco	It may be difficult to pronounce, but its benefits abound! Oligophyco is rich in many nutrients which help regenerate damaged skin while increasing firmness and elasticity.
Orange Oil	Like other citrus oils, Orange Oil is a valued ingredient in skin care lotions and crèmes. It is impressive due to its soothing antiseptic and skin-calming qualities.
Parsol	Parsol is highly effective in protecting against the sun’s harm. A UVB filter, it is found in sun care products for skin and hair and can assist in preventing pre-mature aging of the skin due to sun exposure.
Parsol 17	Parsol 17, a UVA filter, is a key ingredient in many hair and skin care products with sun protection properties. Its valuable protection can help skin defend itself against the damage caused by the sun.
Parsol 1789	This UVA sun filter is probably the most commonly used in sunscreens. It offers a very broad range of protection from the damage caused by sun and is considered hypoallergenic so it will not irritate your skin.
Parsol MCX	Parsol MCX is known as an excellent UVB filter. This highly effective ingredient is found in sun care products for skin and hair. It can help protect skin from the aging effects of sun exposure.
Peppermint Water	Peppermint Water is a refreshing ingredient in skin care sprays and elixirs. It serves to make skin feel stimulated and revitalized. Many believe that Peppermint also has a calming and relaxing effect on the mood.
Perilla Oil	Perilla Oil is derived from a plant in the mint family. It is high in Omega-3 and is a popular ingredient in dietary supplements. In skin care terms, it serves to hydrate and nourish skin and is found in various products - especially anti-aging and wrinkle-reducing sérums and crèmes.
Philodendron Extract	Philodendron Extract comes from such a common plant, but the results achieved when used within a skin care product are anything but common! An excellent moisturizer for dry and itchy skin, it is also well-suited for oily skin, leaving it moisturized and soft without oiliness.
Phlorogine	Phlorogine is a must for oily skin. This extract helps to balance the skin, greatly reducing oiliness without over-drying. In a skin care sèrum, it can be relied upon as an excellent weapon in the fight against oily skin and difficult acne.
Phytoglycolipides	Phytoglycolipides is derived from various plant seeds, such as wheat. It conditions, moisturizes and helps protect skin from environmental damage. It is well-suited for anti-wrinkle and anti-aging skin care products, and its use can help improve the overall appearance of skin.
Phytosqualan™	Phytosqualan is a perfect ingredient for skin care products. A plant derivative, it is very similar to and extremely compatible with the natural oils of the skin. It is non-greasy and easily absorbed. It offers skin softness and smoothness as it strengthens the lipid barrier preventing future moisture loss.
PR1 Perfum Base (Eucalyptus Globulus Leaf Oil, Lavandula Hybrida Oil, Cinnamomum Camphora Bark Oil, Melaleuca Quinquenervia Leaf Oil, Coumarin, Geraniol, Limonene, Linalool)	This pure essential oil complex has detoxifying and purifying properties. In a skin care elixir, it helps to restore the skin’s protective film.
Propylene Glycol	This organic compound is a moisturizing maniac found in skin and hair care products. It penetrates the upper layers of the skin and hydrates like a champ while leaving skin looking smoother and feeling great.
Propylene Glycol Codex	This moisturizing ingredient is a perfect addition to skin care treatments such as body mists.
Red Tea	Red Tea (a.k.a. Rooiboos) is gaining popularity as people become even more aware of its high levels of antioxidants. A welcome addition to a beauty drink, Red Tea has many great properties for the entire body. Topping the list are its ability to help slow the aging process and boost the immune system.

Refined Corn Germ Oil	Similar in composition to sunflower oil, Refined Corn Germ Oil is a substantial emollient rich in fatty acids and Vitamin E.
Roman Chamomile Extract	Roman Chamomile Extract comes from a delicate daisy-like flower and has excellent soothing and comforting properties. Its anti-inflammatory characteristic makes it a welcome ingredient to skin care products for sensitive skin. An excellent skin conditioner, this extract helps reduce dark circles and puffiness under the eyes.
Rose Hips Oil	Rose Hip Oil is well known for its impact on the skin - particularly dry, mature skin. With its restructuring and rehydrating properties, this oil has been shown to repair damaged skin cells, reduce wrinkles and restore firmness to the skin.
Rose Water	Rose Water -- it just sounds sweet and soothing, and it is! Rose Water in cleansers and toners works to refresh, moisturize and tone, making it highly effective for both dry and sensitive skin. Its astringent quality makes it equally effective for oilier skin.
Rosemary Oil	Purifying. Healing. Regenerating. These are a few words used to describe the properties of Rosemary Oil. It is a winner in skin care products due to its antioxidant characteristics and its wonderful yet subtle fragrance.
Rosewood Oil	Extracted from the bark of an evergreen tree with Brazilian origins, this oil is highly effective in products for various skin types. Rosewood Oil is known for its ability to stimulate cells and regenerate tissue, making it an especially exciting ingredient in products for aging and more mature skin. The environmentally conscious might also find it important to recognize that legislation in South America currently requires that these trees be properly forested - one planted for every one forested!
Rucus Extract	Rucus Extract is a circulation booster for your skin. Its use in skin care products helps enhance fluid removal by dilating venous and lymphatic channels. As a welcome addition to crèmes, it works to enhance the form and appearance of skin.
Safflower Oil	Even VERY dry skin is no match for Safflower Oil. As a component in cleansers and crèmes, this oil is an excellent source of essential fatty acids and works effectively to truly hydrate skin.
Sage Extract	The word for the herb sage comes from the Latin word, "salvia", meaning savior. Sage Extract may just be a savior for oily skin! A free radical scavenger as well as an excellent antiseptic/astringent, this extract is full of benefits for those with oily skin.
Sage Oil	Sage Oil is an essential oil known as an anti-inflammatory and astringent. Its healing properties make it an excellent ingredient for skin care products, especially for troubled or oily skin.
Salicylic Acid	Salicylic Acid has long been used by wise people from the Greeks to the Native Americans. The word itself is Latin for Willow Tree, and the bark of the willow is one source from which it is derived. Often found in facial cleansers and acne treatments, Salicylic Acid allows for new skin growth after it carefully peels away the top layer of the skin and opens plugged follicles.
Sea Silk	A gift from the sea! This Seaweed extract is a particularly impressive ingredient when included in hair care products. Its purpose is to increase shininess and softness while moisturizing dry and damaged hair. Additionally, it is anti-irritating and soothing, making it particularly beneficial for those with sensitive skin.
Sea Water	Simple and effective, Sea Water is a natural ingredient that can penetrate cell membranes and promote much needed hydration. In a facial crème or sèrum, the effect is long-lasting moisturization that assists in skin renewal!
SEC	SEC is an ingredient with several purposes. This hard-working product is particularly valuable to those with mature skin who can find it in various anti-aging skin sèrums. It works to smooth out those crow's feet and other fine lines, reducing their severeness. At the same time, it also protects from free radicals that can cause future damage.
Shea Butter	Native to Africa, the Shea tree produces a fruit that is used in creating one of the world's richest emollients. Shea Butter is well known for its nourishing, moisturizing and repairing properties. It is also known as an anti-inflammatory and can provide some UV sun protection. It is highly effective in calming skin irritations and improving the appearance of dry skin.
Sodium Ascorbyl Phosphate	A Vitamin C derivative, Sodium Ascorbyl Phosphate is known for its antioxidant properties. While it combats the formation of irregularities in skin color, it also promotes the formation of vital collagen.
Sodium Hyaluronate	Sodium Hyaluronate helps the fight against dry skin! It comes to the rescue by forming a protective film on the skin and can help moisturize and soothe even the most sensitive skin.

Soja Insaponifiables	Soja Insaponifiables (a soybean derivative) is a powerful skin care ingredient. As part of a face lotion, it protects the skin and helps boost its defenses. Its regenerating and moisturizing properties promote cell renewal and diminish the look of those unwanted fine lines. Bottom line ...skin looks and feels smoother, tighter and younger!
SPD	SPD is an anti-microbial. In skin care products, it helps protect the skin from bacteria and other toxins that affect the look and feel of your delicate skin.
St. John's Wort Oil	St. John's Wort Oil is an anti-inflammatory as well as an analgesic that promotes healing. In skin care (especially sun-care) products, it has wonderful soothing benefits and helps skin maintain its balance.
Sunflower (Seed) Oil	Yes, it comes right from that little seed! Sunflower (seed) Oil is a rich emollient that helps skin retain its moisture. It gently works to protect, strengthen and condition skin.
Sweet Almond Oil	Sweet Almond Oil is a star when it comes to skin care products. It can play an important role in cleansers, moisturizers, lip care, etc. Great for dry skin, it is a rich emollient and a soothing anti-inflammatory which calms and nourishes the skin, leaving it silky to the touch.
Talc	Especially valuable in cleansers and acne-fighting skin care products, Talc is a natural mineral (of magnesium) that helps absorb oils from the skin.
Tamanu Oil	The powers of Tamanu Oil are becoming more and more understood for use in cosmetics and even for medical purposes. Truly a treasure from the tropics, the Tamanu tree is indigenous to tropical Asia where natives are said to believe it is a gift from the gods with powers to protect their skin from the elements. Tamanu Oil aids in the formation of new tissue, and in a skin care regime, helps in the development of healthy, clear skin. It possesses healing, anti-inflammatory and even anti-bacterial properties.
Tegoamid	Tegoamid is a great conditioning agent found especially in hair care products. It contributes to the manageability of hair, reducing static charge and leaving hair feeling soft.
Tephroline	Tephroline enhances wellness inside and out! Extracted from the seeds of the wild-indigo plant which grows in the Himalayas, it has traditionally been used by many cultures to make skin feel good and to promote calmness and relaxation. In crèmes and sèrums it works to soften skin as it stimulates the synthesis of beta-endorphins which promote relaxing and calming effects.
Thyme Oil	Thyme Oil is a powerful essential oil. It serves to soften skin and also possesses strong antiseptic properties.
Tiare Oil	Tiare Oil is comprised of the extract of the Tiare (Gardenia) Flower, Hydrogenated Coconut Oil, and Tocopheryl Acetate, a form of Vitamin E. Together, these ingredients bring a wealth of benefits to the skin. Contributing its lovely fragrance as well as its soothing treatment of eczema, the Tiare Flower has been used for centuries in its native Tahiti. The Coconut yields a distinctively dry, silky oil, rich in fatty acids, and known for its emulsifying and emollient properties. Finally, Vitamin E, a powerful antioxidant, increases the skins moisture, and provides relief to many surface skin irritations. Your skin will adore this luscious combination.
Titanium Dioxide	Titanium Dioxide is a white, naturally occurring mineral that is used for cosmetic purposes as a whitening pigment and a sunscreen. It can effectively protect against harmful UV rays which contribute to skin's premature aging. It is also a very attractive skin care ingredient because it is less likely to cause skin irritations than chemical UV absorbing ingredients.
Tocopherol Acetate	A form of Vitamin E, Tocopherol Acetate is an antioxidant which protects the skin against stress. In a skin care regimen, this power ingredient conditions and moisturizes as it protects.
Tritisol	Share the wealth, skin and hair! Tritisol, a derivative of wheat protein, serves you both well! It is a rich and moisturizing emollient for skin and adds volume and strength to hair.
Tussilage	Tussilage is derived from the plant that bears its name. The pretty, flowering perennial is fairly common in France and other places in Europe. The nickname for this plant is "Colt's Foot" because of the large hoof-shaped leaves that take the place of the flower once blooming is over. In skin care products, Tussilage is prized for its skin-softening, anti-aging and astringent properties.
Uvinul M	This is a UV filter grade perfect for a crème. It serves to protect skin against the damaging effects of UV radiation which lead to pre-mature aging. This ingredient also protects the product itself from damage from UV rays, helping it maintain its stability and thus its effectiveness.
Uvinul MS	This is a UV filter grade well-suited for a misting skin care application. It serves to protect skin and hair against the damaging effects of UV radiation which lead to dryness and pre-mature aging. This ingredient also protects the product itself from damage from UV rays, helping it maintain its stability and thus its effectiveness.

Vegetable Glycerin	Vegetable Glycerin is typically derived from coconut or palm oil. It is invaluable as an emollient, and is gentle enough even for children's skin. It is hypoallergenic, highly moisturizing and is "hygroscopic", meaning that it actually absorbs water from the air. Use this natural ingredient to soften and moisturize your most tender, delicate areas.
Vegetal DNA Extract	Use of Vegetal DNA Extract in skin care products can help revitalize and repair skin, reducing the signs of fatigue and dehydration.
Vegetal Tensor	Vegetal Tensor is a natural skin smoother based on a vegetable complex. It helps restore skin's luminosity and minimizes the visible appearance of wrinkles! The sustained moisturizing properties leave skin radiant with a natural, healthy glow!
Vital	It's all in the name! This ingredient is vital to soft skin. It is known as a strong moisturizer which softens the skin giving it a velvety touch.
Vitamin A	It's easy to see why Vitamin A is so very important in a beauty drink! This excellent antioxidant can help stimulate dry skin and promote cellular renewal to keep skin healthy and clear. It is also an essential nutrient and linked to the prevention of night blindness and other eye problems.
Vitamin A Palmitate	(retinyl palmitate) In skin care crèmes, lotions and oils, Vitamin A Palmitate is used for its superior moisturizing and conditioning properties. It soothes as it "normalizes" skin! This natural form of Vitamin A is easily absorbed by the skin aiding the stimulation of new cell growth. It is extremely beneficial for the treatment of dry, damaged skin. Some clinical results have shown that Vitamin A Palmitate may significantly improve skin composition to increase collagen DNA, skin thickness and elasticity. Vitamin A Palmitate's stability is superior to retinol (Vitamin A), and topical application of retinyl palmitate is the most sensible way for loading the skin with retinol.
Vitamin C	This long-respected vitamin may neutralize free radicals which contribute to premature aging while increasing the cell turnover process to enhance skin's natural radiance. Vitamin C is required for the growth and repair of the tissues in all parts of the body. It is necessary to form collagen (an important support system for skin) and contributes to bright, even skin tone. Not only can Vitamin C enhance the look and overall health of skin, it is essential for the healing of wounds and for the repair and maintenance of cartilage, bones and teeth. Unfortunately, the body quickly depletes itself of Vitamin C because it can only store a certain amount. Consider a daily dose in a beauty drink to give the body its much needed fresh supply!
Vitamin E	A champion in the fight against free radicals when in a crème, lotion or cleanser, Vitamin E is a powerful antioxidant that also improves the softness and elasticity of the skin. It prevents premature signs of aging by protecting the vital elements from the destructive forces of free radicals. When consumed in a health/beauty drink, Vitamin E, again, acts to protect cells against the effects of free radicals. It is widely held that free radicals can damage cells and may contribute to the development of cardiovascular disease and cancer.
Vitamin PP	Also known as Vitamin B3 or Niacin, Vitamine PP is the traditional name of this vitamin that is necessary in cell regeneration. In a skin care toner, for example, it can help enhance circulation in areas prone to or plagued by skin problems such as redness from broken capillaries and varicose veins.
Wheat Ceramides	Moisturizing Wheat Ceramides have properties that hydrate and balance while leaving behind softer, smoother skin. They are especially great in skin care products intended for those wishing to minimize those fine lines that appear with age.
Wheat Germ (Refined) Oil	Promoting healthy skin is what Wheat Germ Oil does best! Rich in fatty acids and natural Vitamin E (not to mention Vitamins A, C, K, D, B1, B2, B3 and B6), it is a powerful emollient with intense antioxidant properties. It combats the effects of premature aging and the loss of elasticity and therefore is a likely key ingredient in body, face and décolleté treatments. While promoting cellular exchange and supplying energy and nutrients, it gives skin back its suppleness and smoothness and is well-known for soothing irritated skin. Even hair is not immune to the nourishing and renewing benefits of Wheat Germ Oil!
White Tea	It is becoming increasingly agreed upon in the scientific community that WhiteTea offers even more cancer-fighting antioxidant agents than green tea. Like green tea, white tea is derived from the Camellia sinensis plant. However, the leaves of white tea are harvested before the buds are fully opened. White tea has high levels of anti-viral and anti-bacterial qualities. It is known to help eliminate toxins that can lead to premature aging and also aids in inhibiting collagen breakdown while increasing elasticity to minimize the appearance of wrinkles and sagging. As it replenishes lost moisture from thinning skin, it makes skin appear tighter and feel firmer.

Wild Yam	The powers of Wild Yam have long been heralded by traditional cultures for its ability to treat symptoms of irritability, anxiety and insomnia. It is often used in various forms by mature women experiencing midlife changes to help create balance. In a crème form, it is known for its anti-aging properties and acts deep within cells to help maintain moisture balance and stimulate cellular metabolism.
Witch Hazel Extract	For years only Native Americans were privy to the secret powers of Witch Hazel. Now all can benefit from its soothing and anti-inflammatory properties. Similar to the tannins found in tea, an active ingredient found in Witch Hazel is tannin acid. Tannins have the potential to shrink the capillaries below skin's surface and improve circulation. As a result, crèmes and other products with Witch Hazel may refine the texture of the skin while firming and toning. It also boasts astringent, decongesting, purifying and softening qualities. Nothing witchy about that!
Yeast Extract	Yeast Extract improves the flow of oxygen to skin cells. In a facial masque, this translates into radiant, luminous skin! The excellent moisture-binding properties of Yeast Extract stimulate cell renewal and firm tissues, reducing puffiness and providing that healthy glow!
Ylang Oil	Powerful for mind, body and spirit, Ylang Oil is distilled from the tropical Asian Cananga tree's starfish-shaped flowers. This exotic, aromatic essential oil is known to evoke feelings of deep calm and melt away anxiety and stress. Additionally, because of its ability to soften skin and promote firmness, this wonder oil is a beloved ingredient in crèmes and lotions, especially for those with more mature skin in search of products with anti-aging benefits.
Zinc Gluconate and Extract from Horse Chesnut of India extract	This little combo, Zinc Gluconate and Extract from Horse Chestnut of India extract, is great for sensitive skin. It gently combats inflammation of the skin. As a result, it is a prized ingredient in award-winning skin care products.
Zinc Oxyde/Oxide	Zinc Oxyde/Oxide has long been known as an incredible protectant from harmful UV rays. Less known, but equally important, are the astringent, antiseptic and soothing powers it provides when used in cleansers, crèmes or lotions.
